A REFERENCE LETTER

ATOMENERGOREMONT JSC is one of the biggest companies in the field of power engineering in Bulgaria and the only Bulgarian company specialising in the construction and maintenance of nuclear power plants.

*The management of ATOMENERGOREMONT JSC fully appreciate the professionalism of Mr Nikolay Arnaudski, P.Eng, manager of **USM TECH LTD**, who manufactured and supplied us with **GE USMCLEANER** anti-scale devices. The devices have been installed on the cooling systems during the repair works of the fifth and sixth reactors of Kozloduy Nuclear Power Plant.*

We are extremely thankful for Mr Arnaudski's assistance and professionalism in our solving the issue with the scale. It is an ingenious device which does not require any power, maintenance nor supplies.

It has been real pleasure to know and work with Mr Arnaudski and I would most honestly recommend him and his expertise to anybody who needs to eliminate scale or treat water at a highest level.

Sincerely,
N. Petkov, P.Eng
Executive Director
Atomenergoremont JSC
